Mid-Delta Head Start
Discipline Policy

The Mid-Delta Head Start Program has adopted the following discipline policy for children whose behavior subjects them or other children to danger or bodily harm:

1. Redirect the child to an acceptable activity or behavior.
2. Remove the stimulus from the child.
3. Remove child from the activity, area or classroom setting.
4. No form of physical punishment will be administered to a child enrolled in Head Start by staff or persons volunteering in the center.
5. No disciplinary action will be taken that constitutes a change in a disabled child's IEP placement. A child cannot be denied special services.

I, _____________________________, have read the Head Start Discipline Policy and have a good understanding of it.
