MID-DELTA HEAD START
DENTAL EXAMINATION LETTER

Date _________________

Dear Parent:

_________________________________ needs a dental. A current dental is a requirement of Head Start and is mandated by the Federal Government.

Yearly dentals are an important part of on-going medical care (the dental home). The dental examination is a good way to monitor oral health, growth, and development. Potential dental health problems can quickly be identified and treated.

Dental care is the responsibility of all parents. If you are having problems getting dental care, please contact __________________________, Family Service Staff, at _________________ or Sandra Johnson, Health Specialist, at (870) 462-8437.

Thank you,

Head Start Staff
